31 August 1983

MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Deputy Director, Intelligence Community Staff *EL* 6 SEP 1983

25X1 FROM: [redacted]

Chairman

25X1 SUBJECT: Response to DDCI Question on July Monthly Report [redacted]

25X1 1. This responds to your questions on our July monthly report. [redacted]

2. On 20 July, Mary Lawton, Counsel for Intelligence Policy, Department of Justice, addressed a special meeting of the Critical Intelligence Problems Committee Narcotics Working Group on the legal aspects of intelligence support to the Federal narcotics effort. Ms. Lawton provided a brief history of the recent Executive Orders and their impact on the Intelligence Community and the narcotics effort, as well as a review of the responsibilities of the various intelligence agencies toward the narcotics effort. A key point was her discussion of the Posse Comitatus Act, its recent amendment to permit the military to support the interdiction of drugs into the States, and its implications for the military in a law enforcement role. Another key element of the discussion was the risk of disclosing intelligence information in the legal prosecution of narcotics traffickers and the ramifications for

Chairman

SUBJECT: Response to DDCI Question on July Monthly Report

1. This responds to your questions on our July monthly report.

2. On 20 July, Mary Lawton, Counsel for Intelligence Policy, Department of Justice, addressed a special meeting of the Critical Intelligence Problems Committee Narcotics Working Group on the legal aspects of intelligence support to the Federal narcotics effort. Ms. Lawton provided a brief history of the recent Executive Orders and their impact on the Intelligence Community and the narcotics effort, as well as a review of the responsibilities of the various intelligence agencies toward the narcotics effort. A key point was her discussion of the Posse Comitatus Act, its recent amendment to permit the military to support the interdiction of drugs into the States, and its implications for the military in a law enforcement role. Another key element of the discussion was the risk of disclosing intelligence information in the legal prosecution of narcotics traffickers and the ramifications for protection of sources and methods. With regard to a question concerning the personnel to the Coast Guard or a civilian agency, Ms. Lawton stated that such detailing of military personnel is permissible for a fixed period of time provided that operational control resides entirely within the civilian agency. Ms. Lawton's advice to the group was fairly standard legal fare: "When in doubt, check with your lawyer." She did acknowledge, under questioning, that it seemed to be the clear intent of Congress that military and intelligence resources be brought to bear on the

3. You also requested specifics on the subcommittee of the Interagency Intelligence Committee on Terrorism (IICT) dealing with intelligence support. STAT

The Director of Central Intelligence
Washington, D.C 20505

Critical Intelligence Problems Committee

8 August 1983

MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Deputy Director, Intelligence Community Staff

25X1 FROM: [REDACTED]
Chairman

25X1 SUBJECT: CIPC Monthly Report--July 1983 [REDACTED]

25X1 1. The regularly scheduled monthly meeting was held on 25 July 1983. MGEN Pfautz, USAF, and BGEN Smith, USMC, attended their first CIPC meeting. Both will serve on the Committee as the principal representatives of their respective organizations. [REDACTED]

2. The 25 July CIPC meeting was probably our most productive meeting to date. The primary agenda items addressed were:

25X1 [REDACTED] 25X1

EMINT Committee

25X1 3. After considerable debate, the Committee concluded that this category of intelligence requirement did not presently warrant the creation of a separate DCI Committee and opted instead for the establishment of a subcommittee under the SIGINT Committee. The Committee also concluded that this category of intelligence should continue to be called "Measurement and Signature Intelligence (MASINT)" because the terminology is germane and is presently in use today. [REDACTED]

25X1 [REDACTED]

~~TOP SECRET~~

25X1 4. A formal recommendation to you and the DCI for the establishment of a
25X1 MASINT subcommittee, under the auspices of the SIGINT Committee, is currently
being formalized and will be forwarded to you subsequent to coordination by
the CIPC principals. [redacted]

6. As a result of this effort, a staff paper was developed integrating
the members' comments and other information from related studies. The purpose
of the paper was threefold:

- To provide a vehicle for exchanging agency organizational views;
- To provide a basis for Committee deliberations on what further action might be appropriate; and
- To accomplish the 1979 CCPC study's recommendation that a follow-up review be conducted. [redacted]

25X1 It is noteworthy that these same problem areas were identified in the 1979
CCPC report. [redacted]

25X1 8. The Committee concluded that a broad and far-reaching study was not
warranted. However, they did agree that the creation of a CIPC working group
to address the three persistent intelligence gaps was in order and that the
collection and production committees should provide maximum support to the
CIPC working group. [redacted]

25X1

Narcotics

10. The Narcotics Working Group (NWG) has prepared specific collection guidance for Defense Attaches in key narcotics producing and transshipping countries. This guidance reflects the contributions of CIA, NSA, and State as well as several non-NFIP elements, including the DEA. Upon review by the Director, IC Staff, this material will be forwarded to LGEN Williams.

11. Representatives of the CIPC staff attended the monthly State/INM Narcotics Intelligence Coordination Meeting. The participants discussed the establishment of a new CIA/State/DEA subcommittee. Should this materialize, it would ensure that public disclosure of crop production estimates by individual agencies are coordinated prior to their release.

12. On 20 July, Mary Lawton, Counsel for Intelligence Policy, Department of Justice, addressed a special meeting of the NWG to discuss the legal aspects of intelligence support to the Federal narcotics effort.

13. The NWG met on 6 and 20 July to review issue papers concerning the use of national foreign intelligence information in support of narcotics interdiction and the classification of narcotics intelligence information under national security procedures. The NWG will be working directly on these areas of concern with the DCI's Office of General Counsel and the Information Security Oversight Office (ISOO) to formulate specific recommendations for CIPC review.

14. The NWG draft report is scheduled to be completed by 29 August and submitted to the Working Group for review on 6 September. The final report is scheduled to be discussed at our September CIPC Meeting.

15. Other narcotics-related staff activities in July included meetings with: (a) Claude "Lee" Martin, USAF (Ret), the Special Assistant for Drug Enforcement Matters to USEUCOM, to review the narcotics problem as it affects the European continent, with special emphasis on US forces in Europe; and, (b) representatives of the Coast Guard, the DoJ and ISOO to discuss proposed USCG classification procedures regarding information obtained from their South Florida interdiction program.

Cruise Missiles

16. The Cruise Missile Working Group (CMWG) has received all inputs for the main body of their report. The Working Group reviewed and discussed the draft, including the executive summary and the recommendations, at biweekly July meetings. The report is scheduled to be the subject of our August CIPC meeting.

TOP SECRET

Other Projects and Activities

25X1 22. The staff has concluded its efforts to place the four remaining SAFE Burroughs computer systems within the Intelligence Community, and we have notified D/ODP of the action. Over the past 45 days, six agencies (INS, DEA, Treasury, Customs, Coast Guard, and the Vice President's office) gave serious consideration to utilizing this hardware; but none chose to acquire the systems. On 18 July, despite the recommendation from Customs' technical managers that all four systems be acquired, Washington Customs directors decided that further consideration of Customs' long-range planning was necessary before accepting the computer systems. Additionally, the Vice President's Office was reluctant to pursue NNBIS utilization of this equipment. Instead it supported Customs' acquisition of the Burroughs systems since they could support the narcotics interdiction effort. []

25X1 23. Substantial effort was made to publicize widely the availability of these computer systems and every attempt was made to place these systems within the Intelligence and Law Enforcement Communities. A CIA letter releasing these four systems to GSA was signed on 22 July. []

25X1 24. In consonance with the BW/CW study effort we have under way, the staff is planning a visit to the Edgewood Arsenal in the immediate future. Additionally, we will be receiving briefings by the Army Intelligence and Threat Analysis Center (ITAC) and the Office of Technical Services (OTS). These briefings will focus on operational aspects of the current and projected chemical weapons threat, as well as US doctrine and logistical procedures with such weapons. []

25X1 25. The next meeting of the CIPC is scheduled for 29 August. []
